

New Training Opportunity!

Multicultural Leadership Training: Families and Professionals Creating Culturally Responsive Practices

State Leadership Training is an opportunity for diverse family/professional teams to promote and sustain family centered and culturally appropriate practices in local early childhood programs.

This training is offered by the *Multicultural Early Childhood Team Training (MECTT) Project. MECTT uses a nationally validated curriculum and outreach approach that prepares diverse leadership teams to target priorities and address their specific needs for change. Training can be tailored as an inservice, workshop, intensive multi-day seminars, or training for trainers.
